"For us, it's not about having a cloud strategy; it's about where we can apply a cloud strategy to ensure we are delivering at every level; managing our workforce as efficiently as possible is a business priority. With Allocate Cloud, we not only improve efficiency and productivity across the workforce, we can do so without infrastructure or downtime headaches."

Cloud Services

Investing in our solutions enables organisations to move beyond automation towards workforce optimisation centred on patient need; investing in the Allocate Cloud ensures organisations can do so quickly, without the complexities of onsite infrastructure. Allocate Cloud customers not only realise the benefits faster they do so with ease.

Moving to the Allocate Cloud means our upgrades are taken care of for us. This saves us a lot of time and resources.

Key Benefits

- Fully web delivered service makes every part of the software accessible; anytime, anywhere.
- Frequent upgrades that require no local IT effort provided as part of the service
- Gives predictability of costs and reduces overheads
- Simplifies maintenance
- Includes all disaster recovery
- Removes the internal technical effort
- Delivers a reliable, scalable service from one accountable provider
- Provides the simplest way to benefit from new innovations and applications
- Means software is running on a purpose built infrastructure that is maintained and expanded in keeping with evolving needs.

Simplify your workforce management

Simplify your workforce management by letting us implement, host, and support your HealthSuite deployment for you. As an annual subscription, the Allocate Cloud makes budgeting easy, simplifying invoicing and removing surprises that often arise with on-premises projects.

Implemented by an experienced team of consultants, Allocate Cloud customers receive all the benefits of an on-premises solution with none of the surprises, headaches or strain on internal IT resources. Inclusive of annual upgrades and disaster recovery, Allocate Cloud Services provides greater reliability and flexibility with secure 24x7 access from any device, anywhere.

Painless upgrades

Allocate Cloud Services includes major upgrades each year. We manage the process end-to-end so you realise the benefits of the latest version every year, without any of the costs or headaches of traditional, on-premises upgrade projects. This not only reduces the impact to your IT resources, it completely removes implementation and associated infrastructure costs from your ledger.

Predict your costs

Invoiced in an annual subscription, Allocate Cloud utilises operational expenditure. With no major upfront infrastructure costs to worry about, the subscription cost is all inclusive of major upgrades, environment software licensing, management and application patching. You retain ongoing control of your application, without the surprises, additional costs or resourcing required for on-premise deployments.

Keep your data close

Our datacentres are located within Australia, in highly secured facilities, enabling you to easily comply with Australian Privacy Principles and giving you peace of mind on the security of your data.

More scalable

You can have a functional infrastructure ready in a matter of days. By enabling you to scale up at any time, HealthSuite can grow with your organisation- at a fraction of the time and cost of traditional onsite projects.

Purpose built for optimum service

The Allocate Cloud has been specifically designed to suit Allocate's solutions. The purpose built infrastructure is optimised to maximise performance and availability of our software; with ongoing maintenance and inclusive upgrades delivered by Allocate specialists, the Allocate Cloud provides a more comprehensive solution to traditional, third party hosting services.

More responsive

We know that your IT strategy is designed to support your core focus: your business. That's why we are providing a service level of 99.8% uptime. Allocate Cloud Services ensures you are more responsive and more available; so you can limit your infrastructure downtime to ensure it never affects your business.

Allocate Cloud

Allocate Cloud provides dependable and reliable infrastructure. The fully web delivered service with a 99.8% uptime service level, provides a highly available environment for payroll. Ensuring high availability for real time calculations, award interpretation and actual transactions, means staff payroll is not affected by infrastructure downtime.

The Allocate Cloud provides additional value to customers when compared with on-premise or third party hosting. As a fully web delivered service, you do not manage or have to invest in the underlying infrastructure, which includes network, servers, operating systems and storage and can rely on Allocate Services to handle the upgrade process, end to end. This will not only reduce budgetary and resourcing expenses, it means you receive a high performance environment, maintained and expanded by a single, accountable provider.

Taking the first step

An Allocate representative can sit down with you to help you understand more about a cloud strategy and the value it can bring to your organisation. During this process, you have the opportunity to ask questions, discuss your desired outcomes and address any specific business requirements.
