

 **TIMECLOCKS**

Track time and attendance for all staff.

The ability to capture when employees begin and finish shifts has become a major part of today's workforce management. Allocate's Time and Attendance Capturing solution is aimed at improving your workforce optimisation. The system provides the ability to validate when your staff start and finish work.

**Paperless Time-keeping**

Modern, easily-deployed devices allow staff to electronically record attendance, removing the timesheet burden and the possibility of incorrect documentation.

**Improve Patient Flow**

The unique, live, operational view of all staff on shift, highlights opportunities where patient flow can be enhanced by redeploying underutilised staff to areas of higher demand.

**Log temporary staff**

TimeClocks ensures temporary staff are seen in real-time alongside other staff and that accurate recording of start and finish times and locations are logged.

When combined with Award Interpretation and Payroll Integration, you have a unified solution that meets the market requirements for optimised workforce management.

Our solution allows for each shift to be validated using a variety of time capture devices, including Biometrics Devices, Proximity Cards and Internal Swipe technology.

Benefits

- Provides proofs of attendance for employee
- Reduces time spent manually checking time and attendance
- Automated locking of validated shifts speeds up payroll export
- Improves payroll accuracy, preventing overpaying staff and reducing time theft
- Allows for Trend Analysis through reports

Features

- Records and validates employees start and finish times
- Compares start and finish times to roster
- Auto-locks if clock times match payroll (within tolerance), ready for payroll
- Assists with validation of electronic Timesheets
- Provides alerts for non-attendance

Biometric Support and Maintenance

An effective set up and maintenance of these devices is crucial to the smooth operation of your business and reliance of the accuracy of the data captured. To help reduce the risk of downtime, we offer Biometrics Support and Maintenance Services.

We have broad experience in configuration and the management of biometric devices that integrate with our rostering solution.

Our service include:

- Extensive coverage: shipped to all locations within Australia
- Tailored SLA's
- Extended warranty: cover devices from 1 to 5 years.
