

 **VACANCYMANAGER**

Find the right staff for the right shift

Allocate's VancanyManager is a powerful and comprehensive function which allows roster teams to search for available staff with the right skills to fill a vacant shift. Intelligently automated SMS features allows you to send vacancies to selected staff and then have them automatically added to the roster.

Simplify Processes

VacancyManager automatically generates vacancies for staffing shortfalls when compared to demand

Plan without surprises

Avoid budgeting surprises. Our SMS plans are just like mobile phone plans, where you select your plan based on what you require

Improve shift attendance

Identify and contact only those staff who have the skills required for the shift

health**e**.care

Previously, trying to find someone to fill the shift was often too hard – they would get an agency person in at great expense. Now at the press of a button the roster manager can send text messages to 20 nurses to ask them if they could do the shift

Vacant shift notifications can be sent via SMS to easily and quickly fill vacant shifts, including last minute roster changes, cover absences or manage an increase in patient demand.

Integrates with Optima to create a unified solution that meets the market requirements for optimised workforce management.

Benefits

- Speeds up process of arranging staff to fill vacant shifts
- Peace of Mind that shifts are filled with right mix of skills
- Helps to save on unexpected costs with last minute agency spend
- Cost effective and efficient SMS spending
- Improved visibility from single view system, reducing temporary staffing costs and manual processes
- Improve shift attendance rates and reduces need to engage external agencies for unfilled shifts

Features

- SMS communications automates process for staff notifications and filling in roster
- Manage who is contacted for shift request, based on skill set
- SMS plan, allowing you to select a plan based on your usage. The more messages per employee per month, the cheaper to cost of each SMS
- Single view of roster and VacancyManager, removing need to manage separate systems
